

An FS-ISAC member has requested member participation in a survey on Facility Risk and Critical Support. Primary Points of Contact will be the only persons receiving the invite. We ask that they complete the survey, or forward the invite to the appropriate person at their institution to complete. The FS-ISAC hopes that the one-invitation-per-institution approach will increase the quality of the data we receive, but we rely on POCs to take an active role in the survey process.

The purpose of this survey is to obtain information on common practices for critical facility support, how facility risk is determined and if it is used to determine level of support. This survey should be forwarded to the person who has responsibility for maintaining critical facility support.

The survey is being sent to FS-ISAC Basic, Core, Standard, Premier, Gold and Platinum member institution Points of Contact. The invitation will be sent out today, May 19, 2008. The survey will be open from May 19, 2008 to midnight EDT Friday, May 23, 2008. Your input will be anonymous. NOTE: We are using SurveyMonkey for this survey. The invitation will come from [fsisac@surveymonkey.com](mailto:fsisac@surveymonkey.com)

Thank you for your participation,

FS-ISAC Operations
