

FS-ISAC Press Kit

Thank you for your interest in the Financial Services Information Sharing and Analysis Center. In this press kit you will find an overview of the organization, brief bios on our spokespeople and media contacts for interviews and logo requests. We look forward to hearing from you.

FS-ISAC is the member-driven, not-for-profit organization that advances cybersecurity and resilience in the global financial system, protecting the financial institutions and the people they serve. Founded in 1999, the organization's real-time information-sharing network amplifies the intelligence, knowledge, and practices of its members for the financial sector's collective security and defenses. Member financial firms represent \$100 trillion in assets in 75 countries.

More about us:

FS-ISAC advances cybersecurity and resilience in the global financial system, protecting financial institutions and the people they serve.

Our members are: Banks, community institutions, insurance companies, investment firms, financial markets infrastructure, fintechs, payment processors, credit reporting agencies, and services providers & MSSPs.

FS-ISAC's three pillars of offerings, Intelligence, Security, and Resilience, allow member firms to tap into crowdsourced and enriched intelligence, security knowledge, and resilience practices to integrate into their own firm's feedback loops for improvement.

Three Pillars: A Virtuous Cycle of Advancing Resilience

Intelligence

- Communities of Interest

Security

- Secure chat
- Working groups
- Communities of Interest
- White papers & guides
- Member Events & Summits

Resilience

- Exercises
- Training
- Playbooks
- Business Resilience Committees

Meet Our Experts

Steve Silberstein CEO, FS-ISAC

With more than 25 years of experience in financial services, technology and cybersecurity, Steve is responsible for overseeing FS-ISAC's strategic direction and furthering the consortium's mission to safeguard the global financial system by reducing cyber-risk.

Prior to FS-ISAC, Steve served as the chief operating officer of BlueVoyant, a global cybersecurity firm based in New York City, where he led the strategic direction of the firm's technology, marketing and administration activities. Prior to that role, Steve served as the CEO of Sheltered Harbor, an FS-ISAC subsidiary focused on resiliency solutions for banks. Steve also served as the chief technology officer at SunGard, a \$3 billion global fintech company, until the company's acquisition by FIS in November 2015. Earlier in his career, Steve held senior technology positions at Chi-X Global, Lehman Brothers and FAME Information Systems.

Steve is an adjunct professor at Fordham University's Gabelli School of Business. He holds a bachelor's in mathematics from Rensselaer Polytechnic Institute and is a photographer and runner in his spare time.

Teresa Walsh Global Head of Intelligence, FS-ISAC

Teresa Walsh leads FS-ISAC's Global Intelligence Office (GIO) to protect the financial sector against cyber threats by delivering actionable strategic, operational, and tactical intelligence products. Based in the United Kingdom, she oversees FS-ISAC's global member sharing operations and a team of regional intelligence officers and analysts who monitor emerging threats. Under Teresa's leadership, FS-ISAC's GIO provides an invaluable niche for financial institutions' understanding of how the threat landscape impacts the sector.

Previously, Teresa served as the Europe, Middle East and Africa lead for fraud intelligence and external relationships at JPMorgan. Prior to that, she served as a cyber intelligence analyst for Citigroup in the US and Europe.

Teresa began her career as a civilian intelligence analyst with the US Naval Criminal Investigative Service (NCIS) and holds a master's in political science with a focus on international relations from the University of Missouri-Columbia.
