

Tuesday 27 April 2021				
	Global Intel			
10:00–10:15 a.m.	OPENING REMARKS			
10:15–11:00 a.m.	<b>KEYNOTE</b> <i>Chris Inglis, Former Deputy Director of National Security Agency interviewed by Ann Barron-DiCamillo, Managing Director, Global Head of Cybersecurity Operations, Citi</i>			
11:00–11:05 a.m.	Commercial Break			
	Global Intel		Technology & Third-Party Risk	
11:05–11:50 a.m. Featured Streaming Sessions	<b>Case Study and Tutorial: The Method &amp; Impact of Employing Threat Reconnaissance</b> <i>David Monnier, Team Cymru</i>		<b>Attack Surface Intelligence: Defense in the Age of Digital Transformation</b> <i>Steve Ginty, RiskIQ</i>	
11:50 a.m.–12:00 p.m.	Commercial Break			
	Global Intel	GRC & Resilience	Payments & Currency	Technology & Third-Party Risk
12:00–12:30 p.m. Streaming Channels	<b>Breaking Quarantine: Enabling Effective Cross-Border Intelligence Exchange</b> <i>Chad Breslin, CIBC Stephen Williams, TD Bank Sydney Jones, CME Group Megan Foster, FS-ISAC</i>	<b>Brand Monitoring and Takedowns: Lessons from a Year Fighting Domain Infringement</b> <i>Dan Paltiel, Intercontinental Exchange</i>	<b>Spotting the Face: Enhancing Synthetic Identity Fraud Detection</b> <i>Jeffrey Feinstein, LexisNexis Risk Solutions Mike Cook, Independent Mike Timoney, Federal Reserve Bank of Boston</i>	<b>Wait Aren't They Our Vendor? Using Threat Intelligence to Minimize Supplier Risk</b> <i>Amanda Lam, CIBC Josh Darby MacLellan, CIBC Rachel Babins, CIBC</i>
12:30–12:35 p.m.	Commercial Break			

Tuesday 27 April 2021				
	Global Intel	GRC & Resilience	Payments & Currency	Technology & Third-Party Risk
12:35–1:05 p.m. Streaming Channels	<b>The CostaRicto Campaign: A Case of APT Mercenaries and Novel Malware</b> <i>Anuj Soni, Blackberry</i>	<b>Executive Panel: Best Practices to Implement in Your PAM Strategy</b> <i>Christopher Hills, BeyondTrust Brandon Harberfeld, Investec Angela Benardini, Black Knight FinServ Jeff Lundberg, Masada Cyber Security</i>	<b>Understanding Fraud &amp; Fraud Detection in Financial Services</b> <i>Steve Biskie, RSM US LLP</i>	<b>ATT&amp;CKing Offensive Operations</b> <i>Scott Taylor, T. Rowe Price</i>
1:05–1:10 p.m.	Commercial Break			
	Global Intel	GRC & Resilience	Payments & Currency	Technology & Third-Party Risk
1:10–1:40 p.m. Streaming Channels	<b>Post Solar Winds Security Shift</b> <i>Kurt Lieber, Wells Fargo</i>	<b>Lessons Learned from Vishing and Robocalls</b> <i>Kevin Thomsen, Bank of America</i>	<b>How Can You Trust New Customers You've Never Seen Before?</b> <i>Ayelet Biger-Levin, BioCatch</i>	<b>Jumpstart Your Security Journey with a Modern Approach to Zero Trust</b> <i>Jennifer Jeremiah, Google</i>
1:40–1:45 p.m.	Commercial Break			
	Global Intel	GRC & Resilience	Payments & Currency	Technology & Third-Party Risk
1:45–2:15 p.m. Streaming Channels	<b>Early Discovery: Being the First to Report Vendor and Client Ransomware Events</b> <i>Aaron Alviso, Wells Fargo Adam Perino, Wells Fargo Eric Gumbert, Wells Fargo Steve Taylor, Wells Fargo</i>	<b>Quantifying &amp; Communicating Cyber Risk to the Board of Directors</b> <i>Jerry Caponera, ThreatConnect Inc.</i>	<b>Open Finance and Why CISO's Should Care</b> <i>Don Cardinal, Financial Data Exchange, FDX</i>	<b>How Do You Solve a Problem like Passwords?</b> <i>James Marsden, Liberty Mutual</i>
2:15–2:30 p.m.	Closing Remarks			

Wednesday 28 April 2021				
	Global Intel			
10:00–10:15 a.m.	OPENING REMARKS			
10:15–11:00 a.m.	<b>KEYNOTE</b> <b>Covid-19 Immunity in the US. Data Driven Forecasts to Help Members Adjust 2021 Plans</b> <i>Max Morris, Ally Financial, Inc</i> <i>Paul Benda, SVP, American Bankers Association</i> <i>Youyang Gu, Data Scientist</i>			
11:00–11:05 a.m.	Commercial Break			
	Global Intel		Technology & Third-Party Risk	
11:05–11:50 a.m. Featured Streaming Sessions	<b>The Ransomware Offensive: How to Take the Fight to the Enemy</b> <i>Jerry Bessette, Booz Allen Hamilton</i> <i>Fred Frey, Booz Allen Hamilton</i> <i>Katherine Keefe, Marsh and McLennan</i>		<b>Demystifying Cloud Concentration Risk</b> <i>Jeff DiMuro, ServiceNow</i> <i>Lauren Robbins, ServiceNow</i>	
11:50 a.m.–12:00 p.m.	Commercial Break			
	App & Data	Global Intel	GRC & Resilience	Technology & Third-Party Risk
12:00–12:30 p.m. Streaming Channels	<b>Remote But Never Disconnected</b> <i>Steve Sparkes, Bank of America</i> <i>Todd Ferguson, Raymond James</i> <i>Wayne Hilt, Huntington</i>	<b>How to Fail at Threat Intelligence</b>	<b>Bigger Phish to Fry: Examining Hybrid Phishing Attacks</b> <i>Siobhan Katilie, Capital One</i>	<b>Integrating Mobile Into Your Cyber Program</b> <i>John Rouse, JPMorgan Chase</i>
12:30–12:35 p.m.	Commercial Break			

Wednesday 28 April 2021				
	App & Data	Global Intel	GRC & Resilience	Technology & Third-Party Risk
12:35–1:05 p.m. Streaming Channels	<b>Building an Enterprise Data Protection Program</b> <i>Jim Routh, BigID</i>	<b>FS-ISAC STIX/TAXII Feed Service Offering Overview</b> <i>Chris Ricard, FS-ISAC</i>	<b>What The World Needs Now - How Security Practices Need to Change</b> <i>Lisa Lee, Microsoft</i>	<b>PowerShell for Security Nerds</b> <i>Aaron Katz</i>
1:05–1:10 p.m.	Commercial Break			
	App & Data	Global Intel	GRC & Resilience	Technology & Third-Party Risk
1:10–1:40 p.m. Streaming Channels	<b>Security's Role for Trustworthy AI (and other) Models</b> <i>Mike Silverman, FS-ISAC</i>	<b>Future of Cyber Threats to Financial Services</b> <i>Howard Marshall, Accenture</i>	<b>Fireside Chat between Sheltered Harbor and FIS on Operational Resilience Strategy</b> <i>Carlos Recalde, Sheltered Harbor Scott Yoshimura, FIS</i>	<b>Beyond SolarWinds: Defending Against Attacks on Federated Authentication</b> <i>Andrew Jaquith, QOMPLX</i>
1:40–1:45 p.m.	Commercial Break			
	App & Data	Global Intel	GRC & Resilience	Technology & Third-Party Risk
1:45–2:15 p.m. Streaming Channels	<b>Through the Looking Glass: Data Governance in the Cloud</b> <i>Laurie Litwack, Microsoft</i>	<b>Navigating SolarWinds: A Team Effort to Shore Up Our Defenses</b> <i>Adam Perino, Wells Fargo Brian Heemsoth, Wells Fargo Ryan Linn, Wells Fargo Sarah Heidenreich, Wells Fargo</i>	<b>What AIr Disaster Investigations Teach us About Computer Forensics</b>	<b>Incredible Email Hacks You'll Never Expect</b> <i>Roger Grimes, KnowBe4</i>
2:15–3:00 p.m.	<b>KEYNOTE</b> <b>Why you do, or do not, want to become a CISO</b> <i>Jason Witty, Managing Director, Global CISO, J.P. Morgan Chase &amp; Co                      Craig Froelich, CISO, Bank of America                      Gary Owen, Outgoing CISO, Wells Fargo</i>			

<b>Thursday 29 April 2021</b>				
	<b>Global Intel</b>			
10:00–10:10 a.m.	<b>OPENING REMARKS</b>			
	<b>Global Intel</b>		<b>GRC &amp; Resilience</b>	
10:10 a.m.–10:55 a.m. Featured Streaming Sessions	<b>Collective Defense: Why Collaboration is the Key to a Healthy Security Posture</b> <i>Neal Dennis, Cyware</i> <i>Sajan Gautam, Arvest Bank</i>	<b>New Approaches to Preventing Vendor Email Compromise in a Post-SolarWinds Era</b> <i>Eric Guzek, MassMutual</i> <i>Evan Reiser, Abnormal Security</i>		
10:55 a.m.–11:00 p.m.	<b>Commercial Break</b>			
	<b>App &amp; Data</b>	<b>Global Intel</b>	<b>GRC &amp; Resilience</b>	<b>Payments &amp; Currency</b>
11:00–11:30 a.m. Streaming Channels	<b>Building Blueberry Muffins Using DevSecOps</b>	<b>From Combat to Collaboration: Gaining more Value from Pen Test Results</b>	<b>Driving Forward to Centralized, Dynamic Privileged Access Management</b> <i>Clark Cone, MassMutual</i>	<b>The Smarter Way to Fight Fraud: Adopting the FraudClassifierSM Model</b> <i>Andrés Rapela, Federal Reserve Bank of Boston</i>
11:30–11:35 a.m.	<b>Commercial Break</b>			
	<b>App &amp; Data</b>	<b>Global Intel</b>	<b>GRC &amp; Resilience</b>	<b>Payments &amp; Currency</b>
11:35 a.m.–12:05 p.m. Streaming Channels	<b>Modern Threat Modeling - Evolution in Practice</b> <i>John Steven, ThreatModeler Software, Inc.</i>	<b>Selling Breaches: The Transfer of Network Access on Criminal Forums</b> <i>Eric Strasser, Northern Trust</i> <i>Paul Prudhomme, IntSights</i>	<b>The Social Engineering Playbook</b> <i>Jennifer Kinney, LexisNexis Risk Solutions</i>	<b>Cryptocurrency: An Overview</b>
12:05–12:10 p.m.	<b>Commercial Break</b>			

Thursday 29 April 2021				
	App & Data	Global Intel	GRC & Resilience	Payments & Currency
12:10–12:40 p.m. Streaming Channels	<b>Data Protection: Why We Care and Built a Data Inventory</b> <i>Anne Coulombe, MassMutual</i> <i>Rodney Sanders, Jr., MassMutual</i>	<b>Fraud Actor Tracking and Countermeasures</b> <i>Austin Bryan, Fifth Third Bank</i> <i>Holly Fox, Fifth Third Bank</i>	<b>Operationalizing Governance, Risk and Compliance</b> <i>Ken Lynch, Reciprocity</i> <i>Rob Ellis, Reciprocity</i>	<b>The Use of Synthetics to Commit Pandemic Related Frauds</b> <i>Steve Lenderman, ADP</i>
12:40–12:45 p.m.	Commercial Break			
12:45–2:45 p.m. Featured Sessions	<b>Keynote - 2021 Will be the Most Profound Year in Cybersecurity in our Global History – A Conversation for the C-Suite</b> <i>Robert Herjavec, Herjavec Group</i>  <b>Continuous Security Validation. Remove Assumptions. Prove You're Secure</b> <i>Avihai Ben-Yossef, Cymulate</i>  <b>Tackling the Fastest Growing Cyber Fraud in 2021</b> <i>Greg Woolf, FiVerity, Inc.</i>		<b>Unified Identity Protection</b> <i>Hed Kovetz, Silverfort</i>  <b>Encryption Visibility</b> <i>Brett Helm, HelmCyber Inc.</i>  <b>Instant-On, Workload-Deep, Cloud-Wide Security And Compliance For FinServ</b> <i>Avi Shua, Orca Security</i>	
2:50–3:00 p.m.	Closing Remarks			
3:00 p.m.	Summit Concludes			

## What is Tempt the Titans?

Tempt the Titans is a “Shark Tank” style event for early stage, innovative cyber security startups. This event offers an opportunity for innovative cyber startups to pitch to a panel of financial sector Titans. There will be three judges (CISO’s and Executives) along with Robert Herjavec from Shark Tank who will provide feedback on each solution. If the Titans are tempted, they will be offered a formal evaluation by the firm.

## On-Demand Sessions

These thought leader sessions will be available for On-demand streaming during the entire event.

- Cloud Security Automation for Enterprise Risk Management Simplification | **Alex Shulman-Peleg, Ernst & Young; Nataraj Nagaratnam, IBM**
- Detect, Disrupt, Respond: Aligning Security Initiatives with Financial Outcomes | **Steve Moore, Exabeam; Curtis Simpson, Armis**
- Financial Services & Insurance Industry Threat Review 2020 | **Daniel Blackford, Proofpoint; J.C. Checco, Proofpoint**
- Using Model Driven Security to Apply Risk-based Controls and Unify Security Data | **Deb Makuch & Jackie Grochowalski, MassMutual with Gurucul**
- Thinking Like an Attacker: Securing Active Directory Before the Attacker Arrives | **Derek Melber, Alsid**
- Security Intelligence and the Role of the Evolved CISO | **Dr. Christopher Ahlberg, Recorded Future; Gerard Brady, Morgan Stanley**
- New Attacks on the Software Factory Create Significant Risk in Financial Services Organizations | **Jeff Williams, Contrast Security; Susan Koski, PNC Bank**
- Tackling Security in Hybrid and Multi-Cloud Environments with Confidence | **Joe Partlow & Ashok Sankar, ReliaQuest**
- Threat Hunting Beyond the IOC with MITRE ATT&CK | **Joep Gommers, Eclectiq**
- How To Embrace Vulnerabilities to Improve Security | **Kathryn Torelli, Capital One; Alex Rice, HackerOne Inc.**
- Developer Education: Challenges and Opportunities | **Kurt Risley, Checkmarx**
- What Threat Actors Don't Want You to Know: Active Evasion Techniques | **Michael Tyler, PhishLabs**
- Quantifying the Value of Segmentation in the Enterprise Network | **Raghu Nandakumara, Illumio**
- Leading Bank Balances Digital Innovation and Risk | **Reesha Dedhia & Ameet Naik, PerimeterX**
