

Our FinCyber Today event is jam-packed with targeted insights exclusively from and for our global fincyber community - everything from educating your board to security operations, from security of crypto wallets to the latest in third party risk management.

This is not a traditional summit; FinCyber Today focuses on the tools and technologies we use to keep ourselves safe. You will walk away with practical guidance and tips on how to implement the best cyber defense strategies working now in this complex environment.

This is a new one-day format, with sessions following the sun from EMEA to AMER. Attendees are welcome to blend participation across any event session during any time zone.

 Europe Audience: 11:00 a.m. CET – 4:45 p.m. CET

 Americas Audience: 10:00 a.m. ET – 3:30 p.m. ET

Attendees are welcome to join any event session during any time zone.

Wednesday 3 November 2021
