

**Showcase your brand at the Asia Pacific Summit Series 3-4 August at venues in Singapore and Sydney.** A unique opportunity to amplify your subject matter expertise and brand to a connected and interested audience of cyber and information security executives in this region. Highlight your company in region as members attend in person in Singapore or Sydney.

**This year's Asia Pacific Summit will be hosted in-person** in Singapore and Sydney over two days. The program will address the convergence of fast-moving trends transforming the financial sector – such as cloud, fintech, and cryptocurrencies – which require reimagining cyber resiliency for a new era of complex, cross-border, ever-evolving cyber risks.
