

FS-ISAC offers virtual and in person community events worldwide to give every member an opportunity to learn and network. To view our event calendar, visit fsisac.com/events today!

Member Meeting

Hear directly from your peers and industry experts about the latest trends and threats that impact your organization. Member meetings are specific to regions and include briefs from our sponsors and our Expert Resources Pool specialists along with an optional [TLP Red](#) roundtable discussion.

Audience

CISO, Security Manager, Security Engineer, Threat Intelligence, Investigations, Analyst

Takeaways

- Learn about the latest intelligence and threats affecting your region.
- Discuss tools used by threat actors.
- Understand steps taken to prevent further risk to their organizations.
- Network with members, specialists, and sponsors.
- Earn CPE credits.

Member Success Session

A virtual, FS-ISAC hosted presentation focused on member products and services. Learn how to maximize the value of your membership and tailor services to your needs.

Audience

All member roles, titles

Takeaways

- Awareness around [FS-ISAC's Intelligence Exchange](#) and the various intel products offerings.
- Find documents, create custom notifications, setup tags and alerts in [Share](#), our threat intelligence sharing application.
- Customize dashboard and use private channels within our secure chat application, [Connect](#).
- Learn how to join communities of interest and working groups.

Regional Intelligence Roundtable

Intelligence sharing forum with discussions around threats and trends impacting your organization and/or your region as well as solutions and lessons learned. Classified as [TLP Red](#) with moderated topics provided by members, an around-the-grounds session and free-form Q&A.

Audience

CISO, Security Manager, Security Engineer, Threat Intelligence, Investigations, Analyst, Compliance, Operations & Risk

Takeaways

- Hear the latest threats amongst members and share your intel.
- Gain advice from members on protocols, handling threats, and best practices.
- Ask questions answered by members.

The Financial Services Information Sharing and Analysis Center (FS-ISAC) is the only global cyber intelligence sharing community solely focused on financial services. Serving financial institutions and in turn their customers, the organization leverages its intelligence platform, resiliency resources and a trusted peer-to-peer network of experts to anticipate, mitigate, and respond to cyber threats. Headquartered in the United States, the organization has offices in the United Kingdom and Singapore. Member financial institutions represent over \$35 trillion in assets under management, with 15,000 users in more than 70 countries. To learn more, visit fsisac.com. To get clarity and perspective on the future of finance, data, and cybersecurity from top C-level executives around the world, visit [FS-ISAC Insights](#).
