The cyber threat landscape is complex and ever-evolving. No one firm can anticipate every threat, everywhere, all the time. Alone, firms must constantly battle to stay ahead of borderless cyber threats utilizing whatever resources they have to do so. This is increasingly difficult in a digital world where every device, user, and supplier is a potential entry point for threat actors.

FS-ISAC is the member-driven, not-for-profit organization that advances cybersecurity and resilience in the global financial system, protecting financial institutions and the people they serve. Founded in 1999, the organization’s real-time information sharing network amplifies the intelligence, knowledge, and practices of its members for the financial sector’s collective security and defense. Member financial firms represent $100 trillion in assets in more than 75 countries.

FS-ISAC’s community enables firms to know exactly what their peers are experiencing, how it is impacting their unique environments, and how to benchmark their own firm’s feedback loops for reducing cyber risk.

**Intelligence**
Tailored intelligence, technical products, and briefings enable cyber defense teams to understand the threat landscape in order to defend against it, inform resilience planning and exercise scenarios, and help risk managers calculate risk exposure.

**Security**
Through our many communities of interest, working groups, events, and secure member chat platform, as well as guides and white papers, members maximize their precious cybersecurity resources through learning what works from peers.

**Resilience**
Members build the muscle memory and concrete procedures to respond to attacks through exercises, training, and playbooks. FS-ISAC coordinates sector, cross-sector, and public-private response to large-scale threats and enhancement of operational resilience.

**Membership Benefits**
- Globally sourced, enriched and actionable sector specific cyber intelligence
- Support throughout high visibility incidents
- User credentials for the FS-ISAC Intelligence Exchange
- Global Intelligence Office Regional Threat Calls
- Eligibility for board seat, CISO Congress and Threat Intelligence Committees
- Member-only training, exercises, and conferences*
- Community events: incident briefings, member meetings, roundtables
- STIX-TAXII connectivity
  * nominal fees may apply

Annual dues are determined by firm cyber risk exposure, informed by criteria such as assets, revenue, and clearing customers.

FS-ISAC members are bound by the Operating Rules, Subscriber Agreement, and End User License Agreement, as well as strict sharing protocols to ensure members’ privacy and security.
