

HOW WILL YOUR FINANCIAL INSTITUTION RESPOND TO A
CYBER THREAT OR ATTACK?

CYBER ATTACK AGAINST PAYMENT PROCESSES EXERCISE

PRACTICE YOUR PLAN ■ PLAN YOUR PRACTICE

TAKE TWO HOURS IN OCTOBER TO FIND OUT
IN A SIMULATED THREAT EXERCISE!

REGISTER FOR ONE | OCTOBER 6-7 or OCTOBER 13-14 | NO COST TO FINANCIAL INSTITUTIONS

2015 FI CAPP REGISTRATION FORM <http://www.fsisac.com/capp-usa>

WHAT ■ In October, FS-ISAC and the Payments Risk Council are conducting a two-day, table-top exercise that simulates an attack on payment processes. This annual exercise will help you internally assess your financial institution's readiness in the event of a cyber-attack.

Cyber-attacks and pervasive vulnerabilities are reality of cyber risk. Participating in threat simulations is a best practice for cybersecurity management. Challenge your team with CAPP 2015! <http://www.fsisac.com/capp-usa>

WHY ■ The reality is that security breaches, system compromises, and countless other cybersecurity issues are common and can be severe. CAPP is a confidential exercise that allows you to practice mobilizing quickly, working under pressure, critically assessing rapidly changing information to defend against attack. This respected model helps to:

- Identify gaps in incident response plans
- Strengthen incident response team relationships
- Build understanding of system vulnerabilities
- Drive exploration of improvements in response

WHO ■ Financial Institutions ■ Credit Unions
You do not need to be a FS-ISAC member and there is no charge to participate.

WHEN ■ Choose the week that works best for you
October 6 – 7 | Registration deadline September 29
October 13 – 14 | Registration deadline October 6

MORE ■ For more information, background and questions and answers please visit www.fsisac.com/capp-usa.

THE BASICS ■

HOW DOES IT WORK? Your primary contact will receive a set of *Incident Response Meeting Reports* via WebEx each morning over 2 consecutive days. The reports are presented by actors with supporting PowerPoint slides. After your team has reviewed the information, you will anonymously answer a series of questions via Survey Monkey. You will need access to WebEx and Survey Monkey to participate. **You will not be asked for any confidential or identifying information.**

HOW MUCH TIME DOES IT TAKE? On average, the exercise takes approximately an hour each day.

WHO SHOULD BE INVOLVED? Typically, the response team includes a manager from Payment Operations, IT, Risk Management, Customer Service and Communications. Some organizations also invite a legal representative and a senior executive to either participate or observe the process.

HOW IS OUR RESPONSE RATED? It is not rated. Responses are submitted **anonymously** and collated by general metrics to produce an overall picture of how financial institutions are responding to cyber-attacks and emerging best practices from the data. Many organizations use this exercise as an internal opportunity to identify the strengths and weaknesses in their plan.

DO WE HAVE TO BE A MEMBER OF FS-ISAC? No. The CAPP Exercise is provided by FS-ISAC and the Payments Risk Council. It is offered to at no charge to all financial institutions as an **industry service**.
