Member Update

March 2012

Greetings,

It was great seeing many of you at the FS-ISAC Networking event during the RSA Conference 2012, in San Francisco. We had over 30 people present. We also met a lot of new members. The conversations were very good.

As mentioned previously, we will be looking to do more regional outreach this year with workshops/networking events. If you are interested in hosting a workshop/event in your area, let us know at admin@fsisac.us.

Our first regional event scheduled will be October 17th, 2012 in Chicago. We will be holding a workshop in conjunction with ChicagoFIRST. In addition, we will be holding two Bomb Making Materials Awareness Program (BMAP) training days in Chicago October 16th and 18th along with ChicagoFIRST and DHS. This is an excellent course and it is FREE. Plan now to attend. For more information go to http://www.dhs.gov/files/programs/gc_1259938444548.shtm More details will be shared as we get closer to the event dates.

We also hope to see you at the Annual Summit. We will again be holding an executive luncheon on Monday, May 14th. The venue is fantastic and of course, the networking is invaluable. Remember to bring your volleyball shoes! If you have not registered be sure to do it now.

Deadline For Hotel A Little Over Two Weeks Away!

Pamela Meyer, a certified fraud examiner and best selling author of *Liespotting* will be the keynote speaker at the 2012 FS-ISAC and BITS Annual Summit **May 14 - 16, 2012** at the Turnberry Isle Hotel and Resort in Miami, FL. Her mission: helping people become adept at spotting who is lying and who is telling the truth, which is very relevant to our industry. Read more about her session and other session descriptions around topics such as BYOD, Big Data, Cloud and Mobile Security and APT in the Annual Summit brochure available on the conference site at www.fsisac-summit.com. We are aiming to have as much member participation in the sessions as possible with over 40 FS-ISAC members serving as panelists or moderators. Also remember to register, sign up for golf and reserve your room at the special FS-ISAC & BITS Annual Summit rate of **\$189 + applicable tax today**. Cut off for reservations at this special rate is **Friday, April 13th, 2012**. *Last year the hotel sold out so don't delay!* Registration currently is almost 4 times higher than it was at this time last year, which promises an exciting and well-attended conference. Questions? Send them to conferenceteam@fsisac.com

Sign Up Now To Participate In NLE-12

An announcement went out this week to members to register to participate in National Level Exercise 12 (NLE-12), Exercise 3, which will consist of a cyber event (or series of cyber events) that will take place as part of the scenario with some physical impacts in addition to cyber impacts. Exercise 3 will take place in early June. Registrants will receive alerts from the exercise, any news that is "published" as part of the exercise and any scenario information or other exercise information as it becomes available via the FS-ISAC Secure Operations Center (SOC). Members can choose to play at any level they desire. Some members just observe, others take the scenario and information and play internally (whether it's just a team or department or larger scale) to see how they would handle the situation, test any SOPs, mitigation steps etc. and others become more actively involved, responding back to the SOC for requests for information, situational analysis etc. To register to participate email admin@fsisac.us.

Account Takeover & Cyber Crime Seminar

For the 4th year in a row, MACHA and FS-ISAC are continuing their commitment to leadership in risk mitigation with a timely seminar on Account Takeover & Cyber Crime: Risk Mitigation Techniques. It will be **April 5, 2012**, from 9:00 A.M. - 3:30 P.M at the Holiday Inn, Columbia, MD. To register go to www.fsisac.com and click on the event.

Mark Your Calendars For Upcoming Free Webinars

The FS-ISAC and Trusteer are hosting a complimentary webinar **Wednesday March 28, 2012 at 1:00pm ET on All About the "Man in the Mobile"**. In addition, the FS-ISAC Education Committee and the Business Continuity Institute will hold a webinar **April 4th, 2012 at 1:00pm ET to cover Business Continuity Opportunities, Course Offerings and Materials Available to FS-ISAC Members**. Also plan to mark your calendar for **Wednesday April 11, 2012 at 1:00pm ET** for a webinar hosted by the FS-ISAC and Voltage Security and **Wednesday April 25, 2012 at 1:00pm ET** for a webinar hosted by the FS-ISAC and IBM. As usual, all who register for a particular webinar will receive a link to the webinar recording. To register go to www.fsisac.com and click on the webinar listed in the Upcoming Events section on the home page. For any questions contact the webinar team at webinars@fsisac.com.
