# Member Update

## August 2012

### Greetings,

The bad guys never seem to take a break and they certainly did not take a summer vacation. The sector has seen a number of DDoS attempts, scanning and spearphishing campaigns around the usual themes such as the IRS, UPS, Fedex and Verizon.

Well the good news is that the FS-ISAC does not take a break either. We have been working with members, the sector, as well as our government and cross-sector partners to send alerts, gather and share information around the threats as well as publish mitigation guidance and best practices.

We have also formed a number of new special interest groups. The Insurance Risk Council has recently started meeting. If you are interested in joining the group or in attending the next meeting, which will be September 26, 2012, please contact [admin@fsisac.us](mailto:admin@fsisac.us).

The newly formed Compliance and Audit Council was created to share information on industry best practices, discuss the latest regulatory developments and to find out how peer organizations are handling the latest compliance, audit, legal and control issues. The council is comprised of compliance officers, auditors and legal staff from FS-ISAC member companies. The C&A Council will meet in September and in-person during the 2012 Fall Summit. Again please contact [admin@fsisac.us](mailto:admin@fsisac.us) if you are interested in joining the council.
