

Greetings,

Point of Sale Malware such as BlackPOS and Dexter have been in the news of late with all of the recent retailer breaches.

FS-ISAC, along with the US Secret Service, the National Cybersecurity and Communications Integration Center (NCCIC) and iSIGHT Partners published a paper, POS Malware Technical Analysis: Indicators for Network Defenders. This was published as FS-ISAC GREEN and included retailer risk mitigation recommendations developed by FS-ISAC members. The paper was distributed to members and partners. A copy was posted on the FS-ISAC secure portal.

FS-ISAC is also engaging in outreach to the retail community through the National Retail Federation (NRF) and is exploring ways that we can engage.

In addition, several members are working on a project to determine common points of purchase (CPP) notification where FS-ISAC members can share early detection of possible compromises at retailers. Ultimately, timely notification should result in a reduction in merchant losses.

There will also most likely be Congressional hearings on the retailer data breaches. While FS-ISAC is not leading these efforts, we are working with the Financial Services Sector Coordinating Council (FSSCC) and the ABA and BITS to coordinate the message and provide advice and assistance as needed.

Advanced Threat Technical Exchange in NYC

The FS-ISAC held an Advanced Threat Technical Exchange in New York City, hosted at Citigroup last week. The workshop was attended by almost 100 members who enjoyed topics such as Targeted Threat Groups and Lessons Learned From Intrusion Analysis, Cyber Espionage Versus Cyber Attack, An Update on Kill Chain, How Financial Institutions are Implementing Kill Chain and An Overview of Deep Panda and other actors. Many of these presentations will be shared at FS-ISAC AMBER on the secure portal under **Regional Member Meetings/NYC ATTE-Jan 2014**.

Great Free Networking Opportunities In The New Year

The FS-ISAC will be hosting several upcoming workshops for members. On **February 20th**, FS-ISAC, MasterCard and Washington University will be hosting a workshop on Fusion, including topics on the fusion of information sharing, and data. On **March 20th**, FS-ISAC and UBS will be hosting a workshop on the Legal Implications of Cybersecurity including discussions on the cybersecurity framework, global information sharing and legalities around automated sharing. On **April 3rd**, FS-ISAC and the World Bank will be hosting Working Across Borders, a workshop that will look at collaborating with law enforcement and other institutions across borders, global supply chain, third party risk and more. All of the workshops are **FREE** and are a great way to discuss current issues with your peers. To sign up go to the FS-ISAC website and click on the event under Upcoming Events on the home page.

FS-ISAC Track At DRJ Spring World In Orlando

Disaster Recovery Journal (DRJ) has again partnered with FS ISAC for Spring World 2014. There will be an FS-ISAC track with business resilience topics and presentations tailored to financial institutions. FS-ISAC members Debra Zoppy and Marc Sokol will be presenting a session on *"How to Effectively take Action on Lessons Learned"*. Bethany Netzel will discuss *"Case Studies on Managing Public Relations Embarrassments"* and Denise Anderson and Marlene Roberts will talk about *"How the Public/Private Partnership Can Enhance Resilience"*. Join them in Orlando on **March 30- April 2, 2014**. To see the full agenda go to www.drj.com/springworld. Also take advantage of a 10% discount offered to FS-ISAC members. Simply enter the coupon code "FS-ISAC" to receive this discount.

FS-ISAC Calendar

February 5, 2014
Sonatype Webinar

February 12, 2014
RSA Webinar

May 4-7 2014
2014 FS-ISAC Annual Summit

Mark Your Calendars For Upcoming Free Webinars

The FS-ISAC and Sonatype are hosting a complimentary webinar **Wednesday February 5, 2014** at 1:00pm ET on **Best Practices for Managing Risk from Open Source Libraries and Components**. FS-ISAC member Jim Routh will be presenting along with Joshua Corman, CTO of Sonatype. In addition, RSA will be hosting a webinar on **Make Your Incident Response Program A Key Pillar of Your Security Defenses** on **February 12, 2014**. As usual, all who register for a particular webinar will receive a link to the webinar recording. To register go to www.fsisac.com and click on the webinar listed in the Upcoming Events section on the home page. For any questions contact the webinar team at webinars@fsisac.com.
